

Confirmation

Lehmann & Voss & Co. KG
Alsterufer 19
20354 Hamburg

will be supplied with

our eco-friendly electricity product WSW Strom Grün Premium

at all locations we serve, from January 1th 2026 to December 31th 2026.

The total annual electricity requirement for the delivery year 2026 will be covered by renewable energy.

Lehmann & Voss & Co. KG thereby contributes to climate protection and the expansion of renewable electricity generation, as WSW Strom Grün Premium is produced CO₂-neutral, primarily in new or relatively new hydropower plants in Norway and/or Sweden.

The accuracy of the guaranteed properties is verified annually by TÜV Rheinland and is awarded the high-quality certification RenewablePLUS.

Wuppertal, 22. april 2026
