PHARMAGNESIA® Electrolyte Blend

Rethinking hydration

This innovative electrolyte drink showcases the versatile application of high-quality mineral ingredients from our PHARMAGNESIA® portfolio.

The balanced combination of sodium, potassium, magnesium, and calcium helps support electrolyte balance—especially during physical activity, heat exposure, or fluid loss.

The minerals are provided in highly bioavailable forms (e.g., bisglycinates and citrates), representing quality, functionality, and flexibility for product development.

Note: This formulation showcases selected PHARMAGNESIA® ingredients. More PHARMAGNESIA® ingredients are available. Feel free to speak with us.

Potential benefits:

- **Supports hydration and fluid balance**
- **Contributes to normal muscle function (magnesium, potassium, calcium)**
- **Helps maintain electrolyte balance**
- **Suitable for active lifestyles and sports nutrition**

Electrolyte blend with creatine

Performance meets hydration

This formulation combines essential electrolytes with creatine, demonstrating how modern sports nutrition products can be functionally enhanced.

In addition to supporting electrolyte balance, creatine adds functional value for performance-focused applications.

The PHARMAGNESIA® minerals used in organic forms allow for targeted, high-quality formulations.

Note: This formulation showcases selected PHARMAGNESIA® ingredients. More PHARMAGNESIA® ingredients are available. Feel free to speak with us.

Potential benefits:

- **Supports hydration and electrolyte balance**
- **Contributes to normal muscle function**
- **Creatine may enhance physical performance during short bursts of high-intensity exercise**
- **Ideal for sports and performance nutrition concepts**
